There have been four corrections in the 1975 Relative Value Studies; on page 54 the unit values for procedure No. 11770 and No. 11771 were reversed. The unit value for No. 11770 should be 1.8 and the unit value for No. 11771 should be 4.6.

On page 54, the parenthetical comment above procedure No. 11772 should refer to procedure 13100-15378 not to 13000 to 15378 since no 13000 exists.

On page 55 there is a reference to a Modifier 28. This is a typesetting error; there should be no reference.

On page 88, the parenthetical comment above procedure No. 31245 should refer to code 61548 instead of 61665.
